Speaker 1: You said you could read? What do they do in science class? That is good. Hopefully, I'm watching and waiting. When you take them somewhere, what does that do? [inaudible 00:01:07] Can you show me what you do? Show me what this is. [00:02:00] What you do is, you go right and there it is. You're going to copy your graph over here and put this right here. Now you're going to write your supporting details. These are the reasons why you think they're nice. What are your reasons? You're going to have to write in the circle. [00:04:00] We still need to learn this one. I will help you with spelling and editing.
